

YOUR SOLUTION FOR PRE CAST STONE

 LANDMARK
STONE

WELCOME

Landmark Stone is a family owned business located in Northern California. We have been serving the Western United States and Canada since 2004.

From start to finish, we take pride in providing quality cast stone by using the highest standards in production of each product. You can trust that our experienced craftsmen will be able to get exactly what you are looking for whether it is one of many standard designs we offer or something custom to match your vision.

Our cast-stone professionals at Landmark Stone are committed to providing our customers an exceptional experience. You can expect fast and friendly customer service, on-time delivery and a product that will bring charm, character and warmth for many years to come.

We have the expertise and knowledge to help our customers choose the right products to match their own taste. Our team will work with you through the entire process from helping with product selection, providing estimates and CAD drawings to bring your project to life.

We are dedicated to meet and exceed your expectations with an extraordinary look that will inspire you.

Color

Texture

Landmark Stone offers a variety of standard colors and finishes to complement the natural elements of most projects. We can also provide custom colors and textures at an additional charge.

Many things can affect the appearance of natural or cast stone surfaces:

The time of day: Morning, afternoon or evening

The type of light: Very bright, cloudy, inside and outside.

The texture: Smooth surfaces appear lighter while ones with more texture appear darker.

Viewing Conditions: Close vs. distant, flat vs vertical, damp vs. dry. Time of day.

Photographic examples shown are as accurate as the printing process will allow, but it is always best to order a sample kit to get an accurate representation of the color and texture you are looking for.

Landmark Stone offers textured surface options that will fit your style.

Smooth: a smooth finish that has a clean look.

Limestone and Sandstone: a natural weathered look.

Travertine: a special process that closely matches the look and feel of natural Travertine stone.

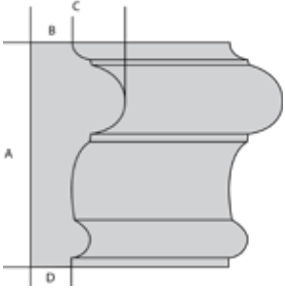

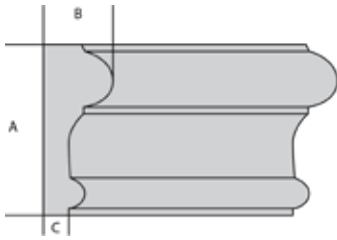

Old World: a weathered classical look of the Old World style of the ancients.

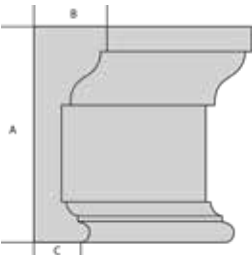

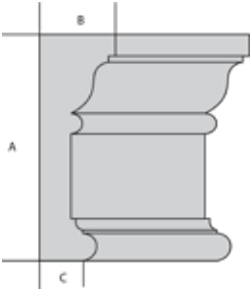

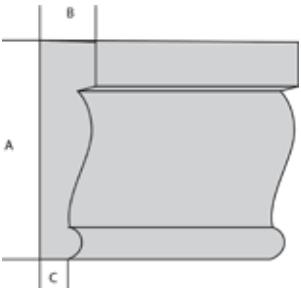

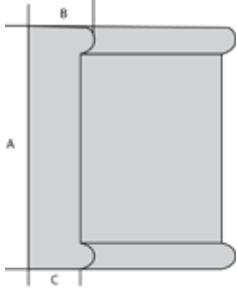

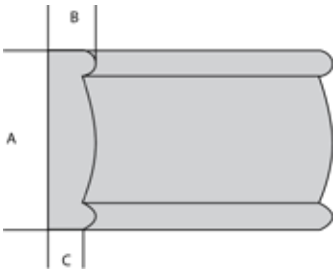

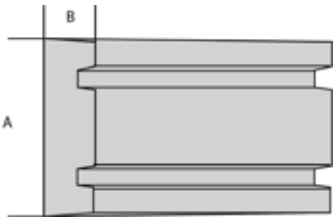

****Product colors in this brochure may vary slightly from actual product due to printing and photography limitations. We recommend viewing actual product samples prior to final selection.****

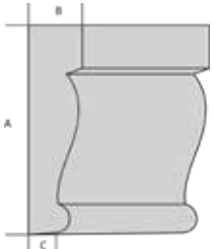

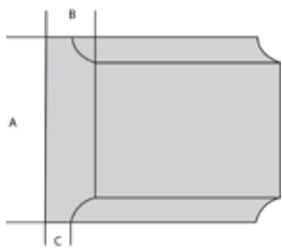

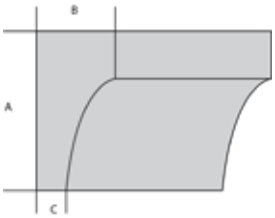

Mouldings can be used as a way to accentuate your architecture whether you are looking for an elaborate ornamentation or sleek style. Mouldings come in standard 24" lengths although custom sizes are available for an additional charge. Other finishing mouldings include Crowns and Corbels.

Product colors in this brochure may vary slightly from actual product due to printing and photography limitations. We recommend viewing actual product samples prior to final selection.

Corbels

Corbels can be used for both support and decoration on ledges, window sills, roof lines, ceilings and many other applications. We offer numerous sizes and styles to choose from and can customize a style that fits your exact needs.

Architectural Trim

Product colors in this brochure may vary slightly from actual product due to printing and photography limitations. We recommend viewing actual product samples prior to final selection.

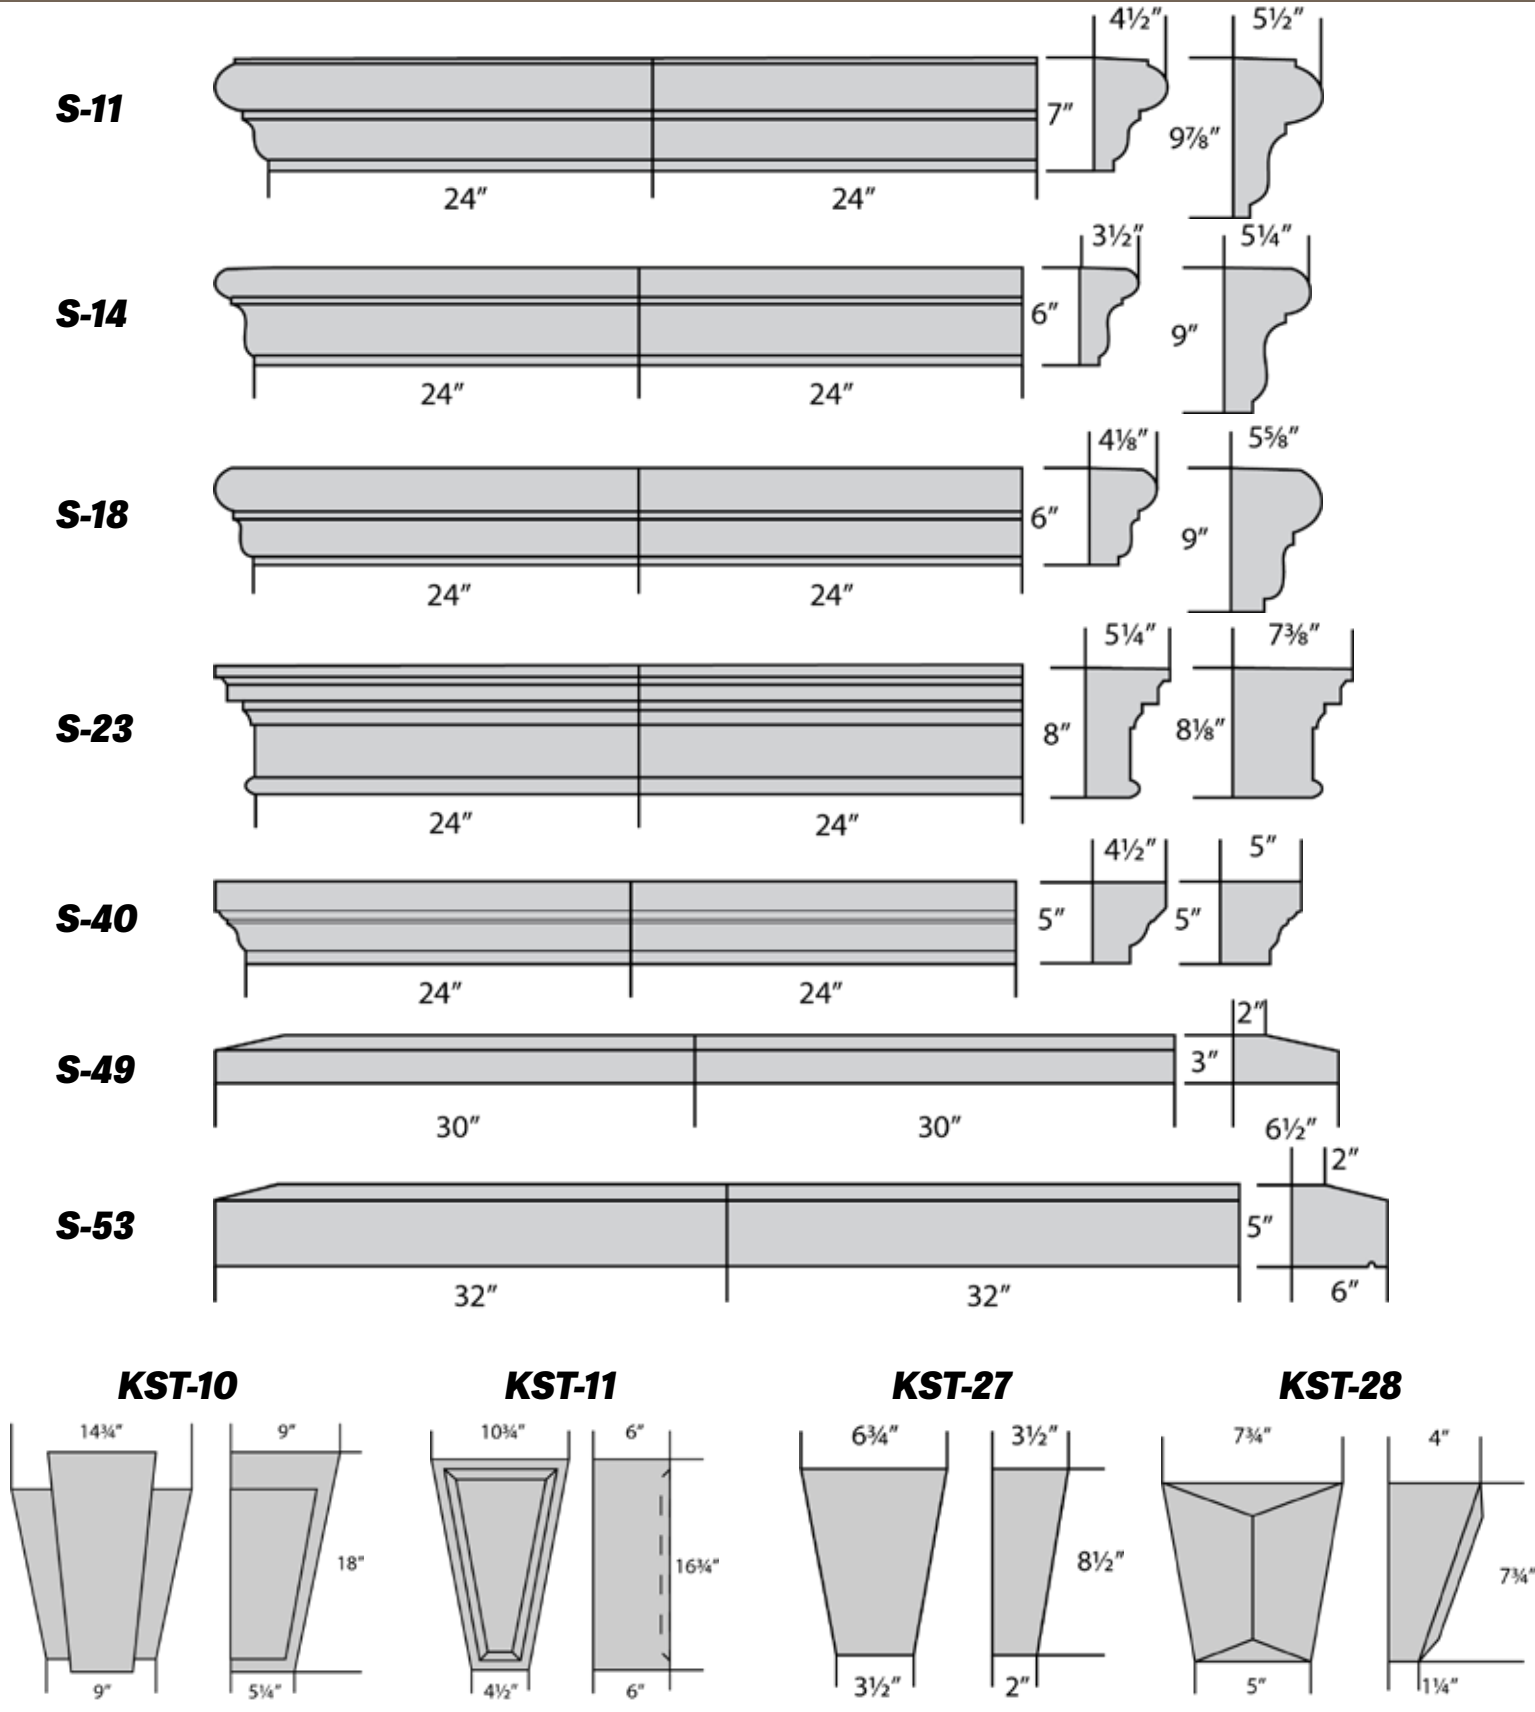

Window Sills

Durable, Functional & Maintenance Free – Window Sill products include a sloped top surface and water diversion drip groove that directs water away from surface facing materials for even the harshest climates. Our sills are consistent for ease of layout and installation. Use in combination with keystone and surround moulding for the perfect window treatment.

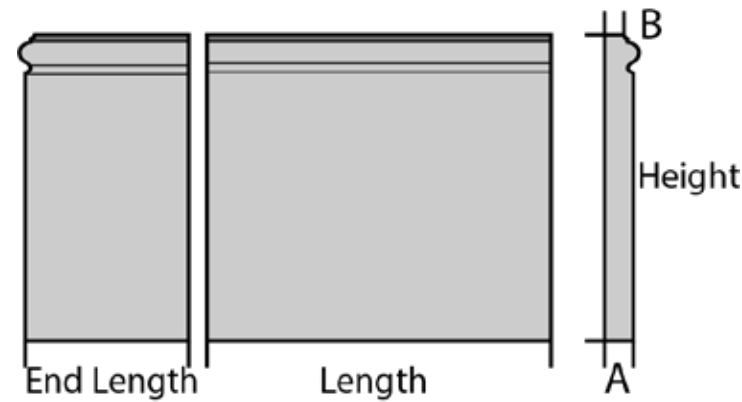

Architectural Trim

Product colors in this brochure may vary slightly from actual product due to printing and photography limitations. We recommend viewing actual product samples prior to final selection.

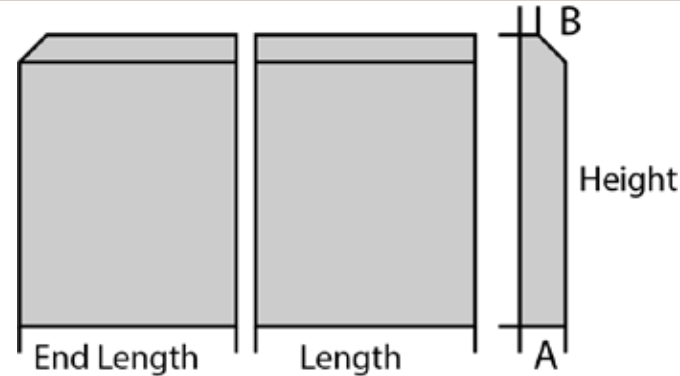

Bring style from the ground up with the addition of baseboard to your design. Landmark Stone baseboard comes in a variety of sizes and styles. Use in combination with other trim options to create something uniquely your own.

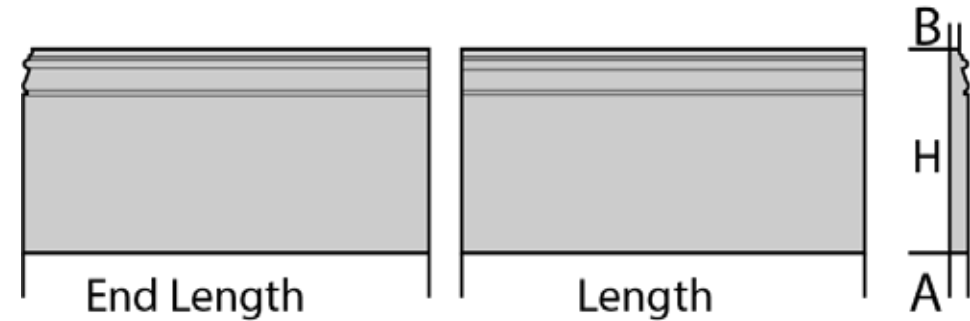

Accentuate your architecture with corner, door or/and window quoins and panels with contrasting texture and color to the walls of your building. We offer a variety of options to suit your project needs and custom designs to fit exactly what you are looking for.

Landmark Stone Balusters are made of the highest quality architectural cast stone. These systems are well-suited for your patio, pool, staircase, balconies or landscaping whether installed as barriers or replicating authentic design.

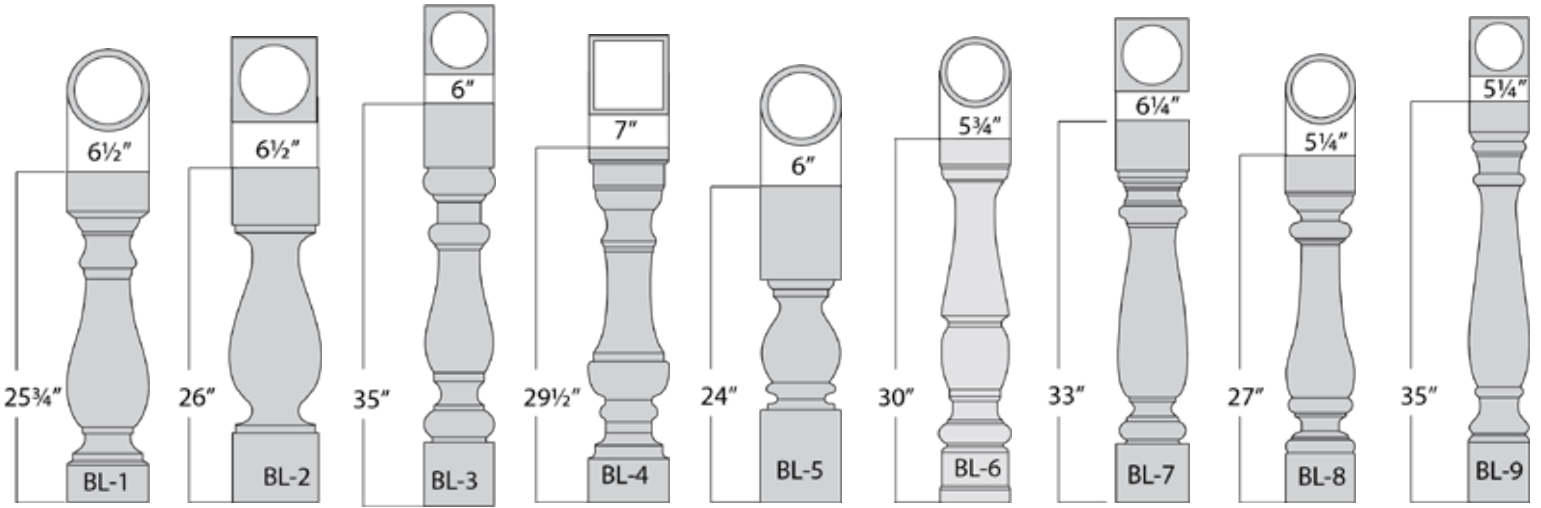

Product colors in this brochure may vary slightly from actual product due to printing and photography limitations. We recommend viewing actual product samples prior to final selection.

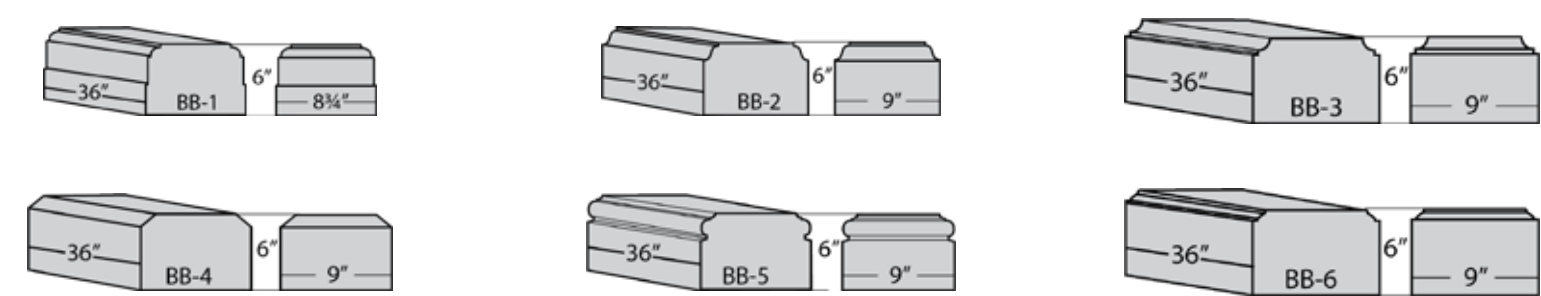

Top Rails

Balusters

Bottom Rails

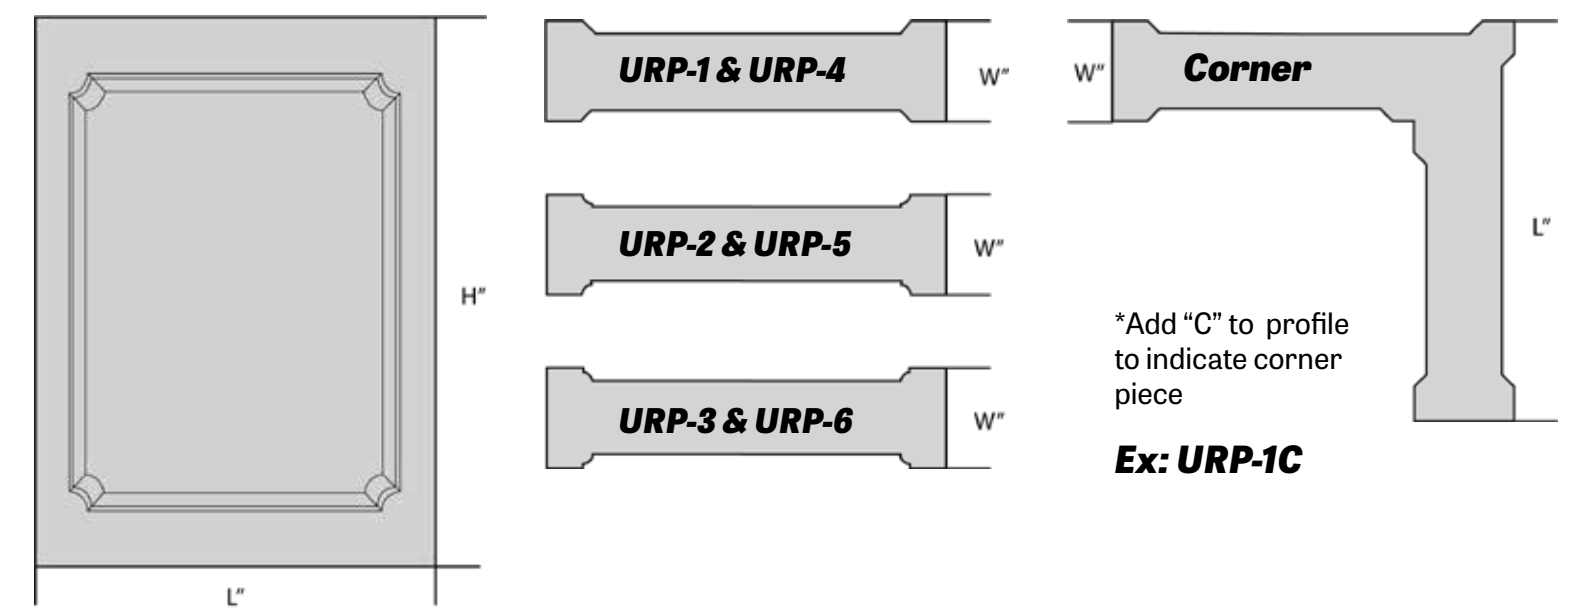

Landmark Stone Balusters are comprised of a three component system that includes a cap, balustrade and base. We offer several standard styles for Balusters. Pick and choose each piece to make a Baluster system completely your own. Balustrades come in a variety of Height and Diameter dimensions. Cap and Base pieces have several different Height and Width options, while common length for these are 36" and 24".

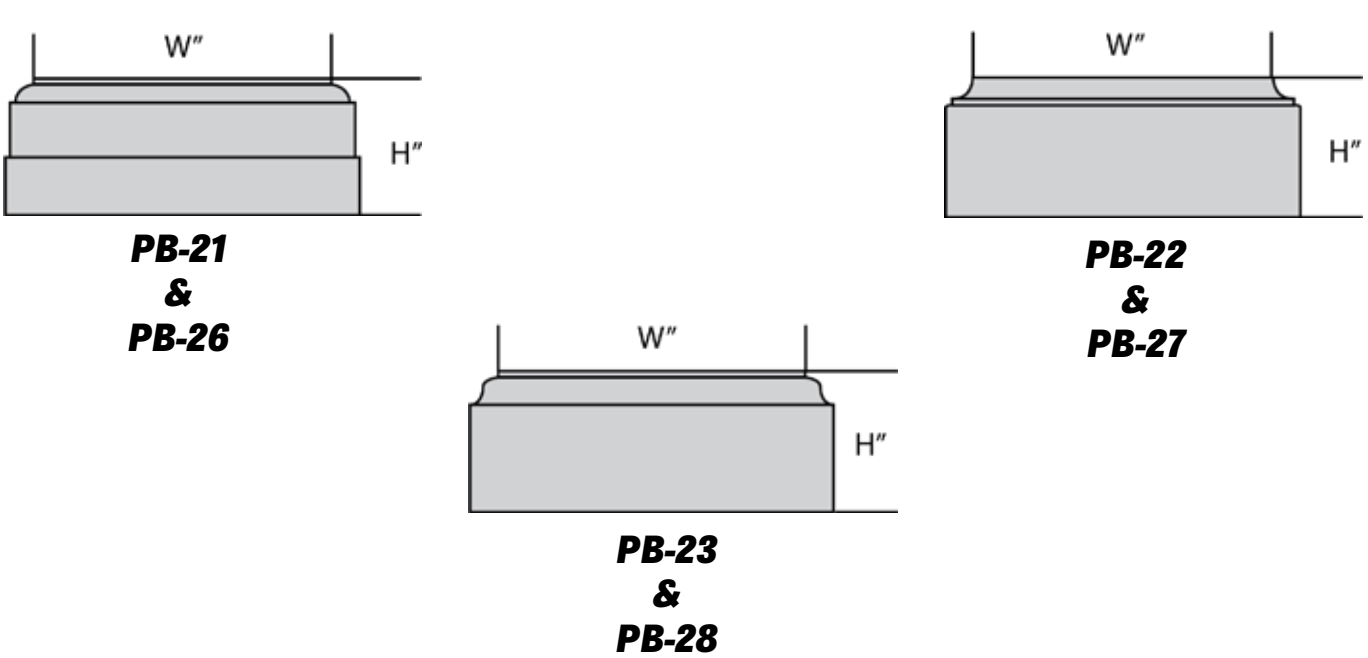

Under Railing can also be added to a baluster system. These pieces are put in under the railing in place of balusters. Pier Posts are another element that can be included in the baluster system. These pieces are a stand alone that can be added at the ends, corners or between stretches.
